MEMORANDUM FOR

25X1A

At 1605 on this date, Dr. Kent called to say that the DCI wanted two meetings in the week of 13 July. Sherm says the regular meeting on the 15th should be the first one at which BNE will present the IAP. Sherm feels that this is firm and that he will have his paper ready.

The date of the second meeting is not firm. It could be either the 16th or 17th, at which time they will consider NIE 11-2 which is the Soviet Atomic Energy Program. Dr. Kent suggests that the second meeting should be on Friday to give Mr. McCone as much time as possible to read the AE Paper.

Dr. Kent has checked with Dr. Chamberlain, who says okay for Friday as far as he is concerned.

Dr. Kent leaves it up to you to establish with Mr. McCone which day the 11-2 will be considered.

Colonel, USAF
